Style of Engaging the Client	+
Direct, encouraging, compassionate	
Proper Use of Gestalt During Session	
Not used in this session	
Timing of Session	+
Just over 45 minutes	
Artometer dropped below "red zone"	+

Optional Comments:

This client struggles w/access to childhood memories and images which is why use of words as her images was referenced.

I reviewed The feedback from my previous submission and made corrections. I've also continued to participate in monthly consults as well as consulting with laney. I've added time notes for easier reference to The video.

Thank you for your time and energy to review this video.

Sincerely,

Deborah
